SELF-PAY POLICY

If we are unable to verify your coverage by an insurance plan, you will be considered a “self-pay” patient. For self-pay patients, It is required that we receive a ***non-refundable deposit before we will schedule an appointment.*** This will be used to cover the costs of the appointments.

If you cannot keep your appointment time(s) and need to reschedule within 3 days of the appointment, the deposit will be applied to those appointments. If you cannot keep your appointment time(s), and do not reschedule within 3 days prior to your new patient appointment, you will lose the deposit.

If an appointment is already scheduled prior to a change in status to self-pay, the appointment will be cancelled and will not be rescheduled until a deposit is received by our office. This deposit is non-refundable (will not be returned to you).
