

Rotation Name: Clinical Rotation (Elective)

Rotation Preceptors: To Be Determined

Site Description: To Be Determined

Rotation Description: This rotation is viewed as purely elective, and an opportunity for the resident to expand on their current clinical skills. The resident may select any clinical rotation available – a complete list is available at <http://healthcare.utah.edu/pharmacy/resident/rotations.htm>. The resident will work with the preceptor to determine any specific goals and objectives in addition to those listed below.

RLS Goals

Custom 1. Design an evidence-based monitoring plan

Custom 2. Recommend or communicate regimen and monitoring plan

Custom 3. Implement regimen, monitoring plan, and provide patient education.

Custom 4. Communicate ongoing patient information to other healthcare professionals.

Activities Evaluated:

To be determined by rotation selected. The resident is expected to actively participate in all patient-care and rotation-related activities.

Readings and Preparatory Work:

To be determined

Evaluations: Evaluations will be documented in Resitrak™. At the midpoint of the rotation, the preceptor will evaluate the resident. At the end of each rotation, the resident will self-evaluate, the preceptor will evaluate the resident, and the resident will evaluate both the preceptor and the learning experience.
