

Rotation Name: Medication Safety

Rotation Preceptors: Shantel Mullin, PharmD, BCPS, Jennifer Grover, PharmD, Carolyn Kowalchik, MS, RPh

Site Description:
University Hospital

Rotation Description: The resident will gain a broad perspective of the types of activities involved in managing medication safety related issues in a health-system. Participate in reviewing medication errors and adverse event reports. Participate in a variety of safety evaluations. Update P&T policies or guidelines based on needs identified through safety review.

RLS Goals

- R2.1 Enhance the quality of committee decisions on medication-use policies or processes.
- R2.4 Develop strategies for improving an organization's adverse drug event (ADE) monitoring and reporting program.
- R3.4 Demonstrate political skills necessary to improve the organization's medication-use process or policies.
- E1.1 Contribute to efforts to prevent and identify risk points in the medication-use process.

Activities Evaluated:

Rotation Activity	RLS Goal	Teaching Methods
Review PSN submissions of medication errors and adverse effects, develop strategies to improve reporting.	R2.4, E1.1	Modeling Coaching Facilitation
Attend hospital safety-related meetings	R2.4, E1.1	Modeling
Complete a safety-related rotation project based on an identified safety issue.	E1.1	Coaching Facilitation
Prepare materials needed for safety-related meetings. This typically includes a gap-analysis of the latest ISMP quarterly action report for presentation at the medication safety meeting.	R2.1	Coaching Facilitation
Attend and present at medication safety meetings	R3.4	Coaching
Attend ADR subcommittee meetings	R2.1	Modeling

Readings and Preparatory Work:

To be determined

Evaluations: Evaluations will be documented in Resitrak™. At the end of each rotation, the resident will self-evaluate, the preceptor will evaluate the resident, and the resident will evaluate both the preceptor and the learning experience.
