FROM HCI HOSPITAL

1. Take any HCI Hospital elevator to the lower level (Level A).
2. Exit left from the elevator, turn left before the glass doorway, and use the exit door past the wheelchair storage.
3. Follow the hallway until it T-junctions and turn to your right. Follow this hallway until you can turn right again.
4. Take your next left, and then turn right immediately before the Research Entrance.
5. Follow the hallway to the parking terrace elevator. You are on parking Level 4. Take the elevator down to Level 1.
6. Exit the elevator and follow the hallway. Turn left at the glass walkway, which leads to the University Hospital. You are on the 3rd floor surgery area.
7. Continue to the University Hospital elevators. Take the elevators down to the 1st floor lobby.

FROM HCI RESEARCH BUILDING

1. Take the north side HCI elevators down to the lower level (Level LL).
2. Follow the hallway around the corner and turn left at the first opportunity.
3. Follow the hallway to the parking terrace elevator. You are on parking Level 4.
4. Take the elevator down to Level 1.
5. Exit the elevator and follow the hallway. Turn left at the glass walkway, which leads to the University Hospital. You are on the 3rd floor surgery area.
6. Continue to the University Hospital elevators. Take the elevators down to the 1st floor lobby.
In addition to our main location on the University of Utah campus, HCI offers cancer screening and treatment services at the South Jordan Health Center and Farmington Health Center.

- Chemotherapy
- Genetic counseling
- Mammography
- MRI
- Radiation
- And more
