

### Select an available date

- To select an available date, select a date with black text. If the date is greyed out, then it is not available for booking.
- If you would like to book an appointment on a different month, in the middle left, select the arrow pointing to the right. If you would like to go back a month, select the arrow pointing to the left.
- Next, select an available time.
- Note: ensure both a date and time are highlighted. If either one is missing, your appointment will not be booked.**

### Add your information

- Next, fill in your name, email, address, and phone number.
- Once you type in your phone number, a prompt will appear asking if you would like to receive reminders via text. This is optional, and not required.
- Then, if you have any information you would like to add, fill it in the notes section on the right side.
- Note: ensure that you fill in your name, email, address, and phone number. If you do not fill in one of these fields, your appointment will not be booked.**
- Finally, select “Book” to book your appointment.
